

PU 1800

All purpose water based polyurethane

SureTread PU1800 is a water based tough , hard wearing varnish that is self priming, and adheres to existing varnished surfaces, concrete, kwila and radiata with minimal preparation. Supplied at application viscosity, it gives an extremely tough and hard wearing film on floors that will withstand foot traffic and furniture better than other products.

Because it uses high performance polymers it is resistant to yellowing and age crazing. It has state of the art UV absorbers

Approved Applications

- Decks and Floors
- Can be used as a top coat to create hard wearing surfaces.

Features and Benefits

- Cost effective application ideal for those big jobs
- Superior shore hardness, prevents coating wear and tear
- Multiple colours available
- Ideal viscosity, supports roller, brush and spray applications
- Exceptional adhesion, bonds to multiple substrates
- Environmentally friendly, solvent free, isocyanate free and VOC free

- **PU 1800 is manufactured in New Zealand by IDEALS LTD .**

Products Available; Eco-glow in the dark, Eco-Shield membrane, Eco-Seal clear, Paints, Primers, Moss & Mold Killer, Water based Polyurethanes and Epoxies, Roofing tapes, Sealants and Membranes
