

# SURE TREAD 2000

**Low viscosity, solvent free, water based primer for two pack epoxy resin flooring systems.**

Sure Tread 2000 is a two part, solvent free water based, lightly coloured epoxy resin system specifically formulated for flooring usages. This material is used to prime substrates for two pack epoxy flooring systems. Sure Tread 2000 is tinted white to act as a reflective primer for the Eco-glow in the dark safety system.

## Approved Applications

- Decks and Floors

## Features and Benefits

- Cost effective application ideal for those big jobs
- Superior shore hardness, prevents coating wear and tear
- Ideal viscosity, supports roller, brush and spray applications
- Exceptional adhesion, bonds to multiple substrates
- Environmentally friendly, solvent free, isocyanate free
- **Sure Tread 2000 is manufactured in New Zealand by IDEAS LTD .**

**Other Products Available; Eco-glow in the dark, Eco-Shield membrane, Eco-Seal clear, Paints, Primers, Moss & Mould Killer, Water based Polyurethanes and Epoxies, Roofing tapes, Sealants and Membranes**
